THE NATURE COMPANY IN SAN FRANCISCO

Our New Museum
Store at the
California Academy
of Sciences

We are especially proud this year to announce that the Nature Company has accepted an invitation to operate the new Museum Store at the California Academy of Sciences in San Francisco. Those of you who travel to the Bay Area will now have an opportunity to visit one of America's most unusual stores in one of America's most exciting museums! Located across from the De Young Museum of Art in the middle of San Francisco's Golden Gate Park, the California Academy of Sciences houses the world famous Steinhart Aquarium, the Morrison

Planetarium, the Simson Hall of African Animals, the Hall of Minerals, the Wattis Hall of Man and now the Nature Company's Museum Store!

We would be delighted to have you visit any of the Nature Company's fascinating stores in Berkeley (two locations), Palo Alto or in San Francisco. Each has a full array of naturalist books, gifts, tools and paraphernalia for nature lovers of all ages. For those of you unable to stop by, we hope you enjoy this latest 1980 Catalog—a brief sampling of the Nature Company at its best!

The Nature Company is an authorized dealer for all Celestron Telescopes and accessories. Telescopes are on display at our North Berkeley, Palo Alto and Museum stores.

A.

A. Celestron C-90 Telescope This amazing telescope will bring you the moons of Jupiter, Saturn's rings and the craters of the Moon. Its tremendous power coupled with compact size also makes it the ultimate field tool for viewing birds and wildlife at close range. It's easily adapted for telephotography and is safely portable just about anywhere you want to take it.

The standard eyepiece provides 55 to 140 power magnification. Optional eyepieces yield more than 200 power. Objective, light-gathering lens measures 90mm. The Astro-Telescope, which includes fork mount, slow motion controls and motorized drive for stellar tracking, weighs 8 lbs. and swings down to 7"x7"x13". The Spotting Scope, for terrestrial use and telephotography, weighs only 3 lbs. and measures 5"x8". Both models include carrying case.

(A.) C-90 Astro-Telescope (with fork mount and electric clock drive) #O104 \$595.00

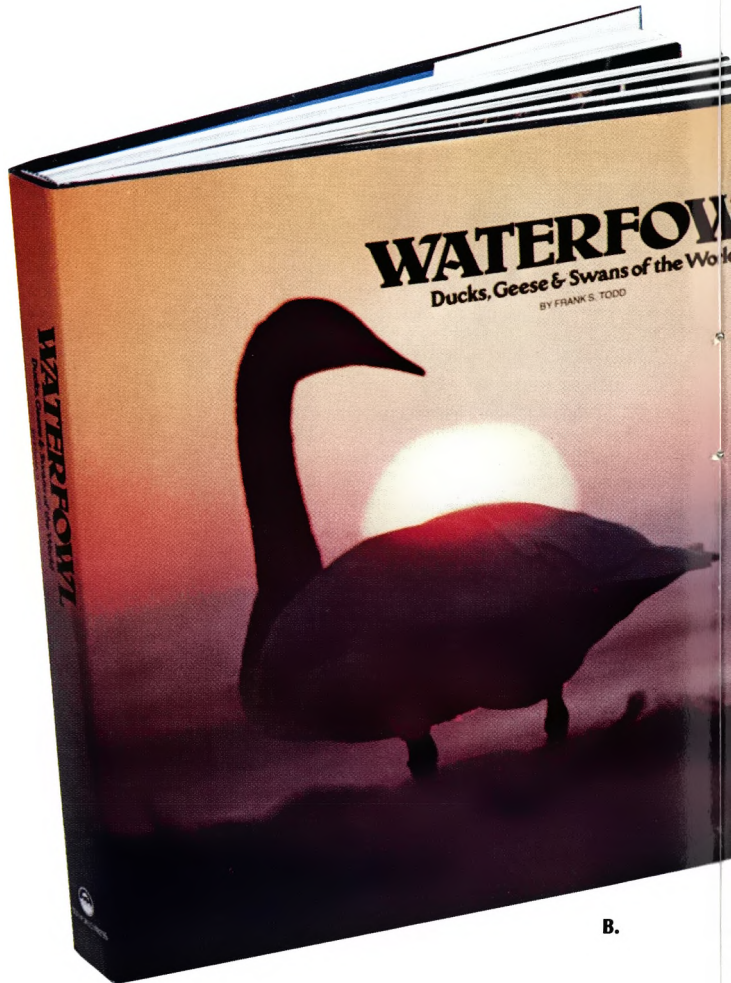

C-90 Spotting Scope #O103 \$395.00

Photo Adapter System for 35mm SLR cameras (specify camera brand name) #O106 \$32.00

Optional eyepieces for extra power 12mm (85x) #O107 \$30.00

9mm (110x) #O108 \$30.00

Optional wedge (converts Astro to equatorial mount for automatic tracking) #O105 \$50.00

B.

B. Waterfowl by Frank S. Todd The largest collection of waterfowl photographs ever published in color, with notes on nesting, feeding, migration, rules of classification and more. More than 750 color photographs. 416 pages, 11"x11", hardbound. (B.) #B437 \$45.00

C.

C. Swift Rubber-Armored 8x56 Binocular The newest Swift roof-prism binocular combines amazing brightness with surprisingly light weight. Its large light-gathering 56mm lens lets you probe into shadows and see objects sharply at greater distance than the standard 35mm and 40mm lenses. Its 42 ounce weight, made possible by roof-prism construction, is exceptional for a glass of its power and size. Moisture and shock-resistant rubber armor and Swift's Limited Lifetime Guarantee. A truly advanced binocular at a moderate price! See data chart page 11.

8x56mm Armored Binoculars w/case (C.) #O136 \$179.00

About Binoculars...

Binoculars are for everybody—naturalists, sportswatchers, travellers, families! There's hardly an outdoor activity without some special beauty hidden from the naked eye.

How to Choose

Three factors determine choice: size, brightness, and price. The small backpack binoculars are wonderful for carrying in car or plane or into the field on long hikes. They make viewing possible in situations where binoculars were previously impractical.

The full sized binocular's larger light-gathering lens provides greater brightness at dawn and dusk and in shadow. Its wider field of view helps for the fast action of sports or wildlife viewing. (The new roof-prism design offers full-sized brightness with much less weight.)

In every case, the better the quality of glass, the brighter and sharper the image. With binoculars, price really does reflect quality.

We recommend

For general use, 8x40 to 9x36 glasses (7x35 if weight is a consideration). 10x40 and 10x50 are for detailed sighting where identification is the main purpose. For travel or theater, all of the compacts listed are quality glasses.

Enjoy your glasses and keep them handy. You'll find whole new experiences await you—in the car, on a walk, even outside your breakfast room window!

PLEASE READ BEFORE ORDERING

Ordering by Phone If your order is \$10.00 or more you may use your Visa or Master Charge Card to order by phone. Have your completed order form and charge card in front of you when calling. Order hours are Monday to Friday, 10:00 to 5:00 Pacific Time. Our number for ordering is (415) 524-8340. We cannot accept collect calls.

Ordering by Mail Complete this self-mail order form. *Where possible use a street delivery address rather than a P.O. Box. This will speed your shipment considerably.* Enclose your check, money order, or credit card information for the full amount required. C.O.D. orders are not accepted. Credits will be issued for overpayment or refunds under \$2.00 and cash refunds will be mailed for amounts greater than \$2.00.

Shipping Charges For non-institutional orders, add \$2.50 for postage/handling/insurance for each shipping address within the United States, including Alaska and Hawaii (\$4.50 for airmail). We will try to have your order on its way within 72 hours. During holiday seasons and at the catalog's release time, orders take a bit longer.

We endeavor to stock all items in the catalog at all times, but occasionally a manufacturer's shipment will be unexpectedly delayed and it will be necessary for us to hold your order. We will notify you of any anticipated delays in shipment greater than 15 days, and will hold all back orders for 30 days unless you request that we cancel the order.

Institutional Orders Purchase orders are accepted from approved, accredited schools and government organizations. Minimum order is \$15.00. Shipping charges are billed at actual cost. Allow 3-4 weeks extra time for large quantities of one item, and be sure that prices are taken from our current catalog.

Foreign Orders Surface to Canada is \$3.75 per shipment for postage/handling/insurance (\$5.00 air). Other countries should estimate weight and consult local postal authorities for rates. Please send estimated postage and total remittance in U.S. dollars.

Guarantee All items in this catalog come with our full recommendation. If you are not completely satisfied with a purchase, follow the return instructions included with your shipment. We will immediately refund your money or replace the item, whichever you choose.

Prices All prices in this catalog are subject to change without notice.
